THE BOAT RACE FIZZLE.

The Particulars of the Affair.

In our telegraphic dispatches yesterday morning we gave the result of the proposed boat race that was to have come off at Pittsburgh on Wednesday between Hagner and Kennedy. Why it did not come off is a question which we do not propose to answer, but we wish to give the facts and let our readers answer that question to their own satisfaction.

Leaving this city on Wednesday morning we arrived in Pittsburgh about 11 o'clock and at once took a car for Birmingham. Arriving there we were shown to Hagner's headquarters and inquiring for Hagner we were shown into a private room where he was in company with another gentleman, a stranger to us, taking dinner. The stranger was a heavy set, rather corpulent man, of about 40 years of age, closely shaven, with a ruddy countenance, showing that he was fond of good living. Hagner greeted us and gave us an introduction to his friend who proved to be the veteran oarsman, Jimmy Hamill. Being invited to partake of dinner, we sat down to a wholesome meal of broiled beefsteak and boiled potatoes, during the discussion of which we entered into a conversation with the gentlemen. We learned that Hagner never felt better in his life, and he and Hamill scooted at the idea of losing. Hagner surely was in good condition, and looked as though he could stand a ten mile race as easy as a five.

Leaving these gentlemen, we started up the river intending to cross over to the Pittsburgh side to see Kennedy. Going down to the river bank we saw two gentlemen in advance who proved to be Mahon Kennedy and his friend Mr. Spoota. Kennedy was looking well but said he had a heavy cold, the result of an upset in the river on Sunday last. He also was confident of winning, and his friends were ready to back up their opinion. Crossing over to Soho, to the Max Moorhead boat house, we found a large number of Kennedy's friends from Pittsburgh and Wheeling, as well as Pittsburgh, collected there. Procuring a tug boat, the boat house was taken in tow and arrived at the upper end of the course about half past two. It was supposed that Hagner and his friends would soon arrive, as the race was to take place between one and four. As yet however, the referee who had been selected, Mr. Peter Connolly, had not arrived. Kennedy was walking around the boat house and along the shore, saying nothing unless spoken to. Time passed rapidly away, and still no Hagner came. At five minutes before 4 o'clock, the referee arrived, and at about the same time Hagner's boat was passing up the river, and a carriage was passing up the opposite side, which it was supposed contained Hagner. Kennedy's boat was now put in the referee's boat and they started across the river to get Hagner's boat. It was now after four o'clock, and Kennedy was advised to get into his boat and declare himself ready, and if no one appeared against him, to row over the course and claim the money. But to this he would not consent, saying he would race for the money. The referee had been over the river for some time when some of Kennedy's friends took a kick and crossed over to see what was the matter. Coming back after a while they said Hagner objected to Kennedy's boat. How they could make the objection of the referee to statements about a boat when it was still in the boat house is not known. The referee then, at about a quarter to five, took his position in the middle of the river and gave the signal for the men to come on; they did so, Kennedy in a boat built by Wm. Nollinger of Pittsburgh. We give the receipt for the boat to show what Kennedy and the builder supposed it to be.

Pittsburgh, October 14, 1872.

Malcolm Kennedy to Wm. Nollinger Dr. to one half for boat, fully working boat, \$40. Received payment.

WM. NOLLINGER.

In this boat Kennedy appeared, but Hagner was in a shell. Kennedy objected to the shell, when Hagner started toward his shore and Kennedy toward his. They were called back, and Hagner's judge said they would not row against Kennedy's boat with their working boat, as it was an old fashioned shell—or a lap strip shell.

It was now getting late, as much time was spent in growling about the matter. The referee would not decide, as he said the judges could not agree and he could do nothing as long as they disagreed. It was by this time too late to row, so all hands soon left by different routes for the city. However, in the mean time the backers had agreed to meet at night at the St. James Hotel. At this meeting nothing was done. Many offers were made by each party and as quickly objected to by the other. It was evident that no race could be made, so the contest was broken up. Many were present from Wheeling and Benwood. Some of them came down on the early train yesterday morning, and the balance last evening.

REPORTED TO ORDER.—By referring to the proceedings of the Board of Supervisors found in another column, it will be seen that a resolution directing the clerk to prepare ballot boxes, tally sheets, &c., for an election to be held next Thursday for a Congressman in this district, was voted down by a vote of 4 ayes, 5 nays. Similar action has been taken, we hear, in Harrison and Marshall counties. As there is but one candidate, and as polls will be opened in some of the counties in the district, there can scarcely be a doubt of Col. Wilson's election. It will then devolve on Congress to determine who is entitled to the seat.

ACQUITT.—The Sterrett trial was concluded on Thursday last. The jury was out but a short time, when they returned a verdict of "not guilty." The State failed to prove its case, for we had a very fair upright jury.—*Mountaineer Reporter.*

The Mr. Sterrett mentioned is a resident in our city, and his many friends here will be gratified to hear of his triumphant acquittal.

The attorney having given his opinion on the statute referred to in the communication of the Town Council of Philadelphia, and the Board being about to take action on said communication, Mr. Craighall appeared as counsel for Mr. Inzer and asked that further proceedings thereon be postponed until the afternoon session.

On motion the matter was postponed until the next meeting of the Board.

The following preamble and resolution were offered: Whereas, the bridge over Marshall's Run on the road between Fulton and East Wheeling lately fell, doing considerable damage and stopping all travel, and whereas, that road has become a public necessity and convenience to the citizens of this county, therefore be it Resolved, that an appropriation of five hundred dollars (or so much thereof as may be necessary) be made for rebuilding same, under the supervision of a committee of three.

The following was offered: Resolved, That the Clerk be and he is hereby directed to issue poll books, etc., for the election of Congressmen on the 24th of this month.

The resolution elicited a protracted discussion and the vote on its adoption was taken by yeas and nays.

Those voting yeas were Messrs. Jacob, Kliever, Osterling and Mr. President.

Those voting nays were Messrs. Clark, Fisher, Handman, Osterling and Stone.

So the resolution was not adopted. Bills of Chambers & Co. \$5 cts. Tom. Hutchison, \$61.50. J. H. Monmouth, \$61.50. Benno Kammer, \$88.45, were presented and referred to their appropriate committee.

A communication from James Reed, of Centre township, in relation to John Powell, an indentured person who was taken ill and had to be provided for, also, transmitting bills of John Ault (\$25.00) and Maria Fritz (\$21.25), for washing and nursing said Powell, was read, and after reducing the bills to \$3.00 to each nurse for every 24 hours, they were ordered to be paid.

Bill of John W. McCulloch, Surveyor of Cherry Hill road, amounting to \$59.90, was presented and the Clerk directed to issue an order for that amount.

The following was adopted: Whereas, At the election held August 22, 1872, the Board of Supervisors submitted to the county the question upon county organization, and the voters decided in favor of the County Court bill, be it Resolved, that the President of this Board be directed to take the necessary steps to obtain the necessary legislation to carry out the wishes of the people as expressed at said election.

Bill of John W. McCulloch, Surveyor of Cherry Hill road, amounting to \$83.00, was presented and ordered to be paid.

On motion, an appropriation of \$100 was made and placed in the hands of E. J. Stone to meet necessitous cases.

Bill of D. D. Williams, for surveying road from West Union and Roney's Ford to Ridge road running to Buchanan's Mill, amounting to \$5.00, was ordered to be paid.

The Clerk was directed to issue an order for \$532.25 appropriated to the Board for the construction of the McDonald & Springer road leading over the Ridge from Frank Lawton's, whenever the proper vouchers are presented to the Clerk. On motion, the Board adjourned.

ONE PIANO EVERY HOUR.—Such is the startling announcement recently made by Steinway & Sons, of New York, unquestionably the largest piano manufacturing company in the world—the justly earned name and reputation of whose instruments is not confined to America, but is world-wide, for large and increasing numbers of them are exported not only to Europe, but to every civilized portion of the globe.

They are to be found throughout South America and Australia, in India, China and Japan; they are heard in the royal palaces and best salons of Paris, Berlin, Vienna, Madrid, Stockholm and St. Petersburg—the resident piano-makers of these cities seek to copy them, and boldly declare that their pianos are made after the Steinway system, whilst throughout the United States they are regarded in the concert room and the home as the leading American piano, alike of the present and the future. At home and abroad the world's greatest artists endorse them with marked unanimity, and prefer them above all others whenever and wherever obtainable. The only place to buy these celebrated pianos, is at V. Harding's Music Store, No. 169 Market street.
